13 & 14 - Fake and True Tombs

## Puzzle Pages

Print and cut out the following pages for your players. They contain copies of the relevant puzzle texts.

---

“The sacrifice of Yoren to the guardian Vaechter yielded naught but the following three numbers, after thoughtful contemplation assumed to be the next in the sequence: nine and thirty, five and forty, nine and forty. Of their significance I can still not fathom.”

The Duke of Lain had to his name  
Eight beautiful daughters chaste  
Who would have known that soon was sown  
The seedling of grave distaste  
They'd start to fight if they caught sight  
Of another's envious stare  
So have heart, spread them apart  
And put an end to this horrid affair

Brave traveler who hasn't yet died  
Stay on your toes if you value your hide  
Six bottles before you in a row aligned  
Which contain promise and which death malign?  
  
Of safe drinks it is good to know there are two  
One against Acid and one to change your Size too  
Yet a third grants resilience to Fire's touch,  
Without its Antidote though it does not help much  
  
Alas the Antidote is not all too pure  
It kills if taken separately to what it does cure  
Two Poisons remain to make the sampler pout  
Death may be quick or altogether drawn out  
  
Know that the Antidote is left of the Acid  
-----*This line is missing*-----  
The large ones can kill you, though one may be the cure  
And Acid, it is known, is bigger than both Poisons pure  
  
Make up your mind and try to choose well  
An incorrect choice leads straight to hell
